What is UNICEF?

**Vision**

- “A world where the rights of every child are realized.”
  - “In everything we do, we work to achieve a world where all children, especially the most vulnerable and disadvantaged, have equal opportunities to survive and thrive.”

**Mission**

- UNICEF is mandated by the United Nations General Assembly to advocate for the protection of children’s rights, to help meet their basic needs and to expand their opportunities to reach their full potential.
- UNICEF is guided by the Convention on the Rights of the Child and strives to establish children’s rights as enduring ethical principles and international standards of behavior towards children.
- UNICEF insists that the survival, protection and development of children are universal development imperatives that are integral to human progress.
Believe in ZERO

This organization believes that no child should die from preventable causes. UNICEF works in over 190 countries to save and improve children's lives, providing health care and immunizations, clean water and sanitation, nutrition, education, emergency relief and more.

“UNICEF will not be daunted by war or conflict, disaster or disease, geography or logistical complexity. Every day, 18,000 children die from preventable causes. We believe that number should be zero. And we will not rest until it is. Join us. Believe in ZERO.”
Campus Initiatives

- “UNICEF mobilizes political will and material resources to help countries, particularly developing countries, ensure a “first call for children” and to build their capacity to form appropriate policies and deliver services for children and their families.”
- “UNICEF clubs partners with UNICEF USA to activate their local community by advocating, building community, fundraising, and speaking out for UNICEF’s child survival work in over 190 countries.”
Service Activities

- Trick-or-treat for UNICEF
- Donut fundraisers
- Book drives
- Advocacy and Education
- Prize giveaway
